

Time & Action (T&A), Workflow System for Fashion Manufacturing Companies

Time & Action (T&A), Workflow Management for Fashion Manufacturers

Fashion manufacturers and agent offices deal with hundreds of styles and customer orders every season. Each of these styles/orders has a fixed timeline to complete fulfilment. In the run to catch-up with aggressive timelines, manufactures and agents are challenged to control and track multiple events and tasks. Any failure to control a task could potentially impact final deliveries, thus causing financial losses to the manufacturer.

Speed Step's T&A, Workflow Management is a formidable software application that helps fashion manufacturers and agent offices to confidently control T&A events.

Speed Step's T&A, Workflow systems allow managers to move beyond daily crisis control into long-term business management roles in line with company's strategic goals.

Our Solutions for your advantage

Speed Step's T&A, Workflow system is designed to give the following benefits to Fashion Manufacturers:

- Never miss a deadline!
- Always get alerted for failed events
- Ability to proactively resolve potential delays
- Fine-tune your pre-production critical paths
- Ensure you always send all required sample colors/sizes for approval by customers
- Integration with courier companies for on-line tracking of shipments
- Mobile Apps for seamless data entry
- ERP integration for non-redundancy
- Pinpoint areas where immediate attention is required
